ABSTRACT

The present study was undertaken to find out the relationship between environmental awareness and environmental attitude of primary school teachers of Punjab with respect to sex. A sample of 200 primary school teachers was selected from district Ferozepur of Punjab. The data was collected with the help of Environment Awareness Ability Measure (EAAM) by Praveen Kumar Jha (1998) and Taj Environmental Attitude Scale (TEAS) by Haseen Taj (2001). Findings of this study revealed a positive and significant correlation between environmental awareness and environmental attitude of primary school teachers with respect to male and females.
