ABSTRACT

MAKE IN INDIA a major new national program, designed to facilitate investment, foster innovation, enhance skill development, protect intellectual property, and build best-in-class manufacturing infrastructure. There's never been a better time to make in India. It's a good move. India is said to be rich in resources both natural and human. India's manufacturing infrastructure and capacity for innovation is poised for phenomenal growth: new smart cities and industrial clusters, being developed in identified industrial corridors having connectivity, new youth-focused programs and institutions dedicated to developing specialized skills. This research paper covers how MAKE IN INDIA theme is beneficial for India in coming future.
