ABSTRACT

Increasing momentum and notoriety when they come into the public eye. The conflict that has captured the attention of millions also has a long history as one of the highest spiritual ideals in the world. Material proof that the age of conflict is at least 2.5–3 thousand years old has been uncovered as a result of research, research, and archaeological scientific searches, observations of historians, ancient scientists, elslumos, and philosopher scientists. Unique discoveries found in Surhan, the Zarafshan Oases, several old Fergana Valley villages, Asori-Atiqas, and samples of Fine Art engraved on rocks all bear full witness to this. Opinions and reflections on the stages of the national struggle's evolution are maintained in this page.

KEYWORDS: *Struggle, National Struggle, Development, Stages, Methods Of Struggle, Wrestlers.*
