ABSTRACT

The world famous Naqshbandi teachings play an important role in the spread, rapid growth and development of Islam in Central Asia.

The Naqshbandi tariqa is widely practiced not only in our country, but also in Central Asia, India, Pakistan, Arab countries, Turkey, Malaysia, Indonesia, and today in a number of European countries: France, Germany, England, Italy and America. [1-3].

This is because the founders of the Naqshbandi teachings are based on the ideas of the Qur'an and the Hadith. The teachings of Naqshbandi serve as a bridge between the countries of the world.

One of the reasons for the spread of Naqshbandi teachings around the world was Ahmad Ziyouddin al-Kumushkhanavi (1813-1897), a murshid of the 32nd ring in the "Golden Chain" – "Silsilai Sharif". al-Kumushkhanavi is famous for his sixty valuable and great works written in Arabic on tasawwuf, hadith, jurisprudence, sarf, nahv and other topics [2: 28-29].
