### ABSTRACT

*Each language's vocabulary is made up of phrase ological units, which are speech-ready pieces of language that make up the vocabulary. In addition, they are present in phenomena like polysemia, homonymy, paronymy, antonymi'a, synonymy, and antonymi'a, taking into consideration their semantic properties, just like other linguistic units. The phrase ological unit itself and additional vocabulary meaning are both considered to be part of phrase ological polysemy. The classification of phrase ological units in English and Uzbek is discussed in this article.*

**KEYWORDS:** *Phrase Ological Units, English, Uzbek Language, Vocabulary, Speech, Grammar, Classification.*
